# Natural luxury

At UrbanStone we believe that excellence shows. From the finest quality, authentic natural stone, to skilled craftsmen and precision engineering techniques, we create beautiful, tactile, durable and luxurious products. After all, why compromise when the best is there to be enjoyed?

PRODUCT

OPULENCE, PEARL - ENGINEERED STONE

# Urban sanctuary

A hidden nook, shaded path, sun drenched corner or poolside patio.  
Where's your tranquil place? The UrbanStone range offers natural  
beauty with the superior crafted qualities of engineered stone, turning any  
outdoor space into your own urban sanctuary.

PRODUCT  
LUXURY (MILLED) GRAPHITE - ENGINEERED STONE

# *Social* statement

It's true that life is better outdoors. So whether you're savouring a quiet coffee together or warmly entertaining friends and family, your UrbanStone alfresco setting means you'll never want to be indoors again.

PRODUCT  
LUXURY (MILLED) ASH - ENGINEERED STONE

# *Lasting* impressions

UrbanStone know how to make an entrance. With our range of superior quality, durable stone products, your home will create a warm welcome and leave a lasting impression, long after the front door has closed.

PRODUCT

LUXURY (MILLED) ASH - ENGINEERED STONE

PLEASE NOTE: THAT WHEN LAYING 600X400 FORMAT PAVERS INTO RESIDENTIAL VEHICULAR APPLICATIONS THE PRODUCT MUST BE INSTALLED IN RIGID APPLICATION ON A SUITABLE CONCRETE SUBBASE.

# Designed to last

UrbanStone has all the right enduring qualities for any residential project of substance.

## EASY TO INSTALL

Our highly accurate production system ensures that laying grids are maintained, and joint gaps are kept in straight neat lines. This accuracy makes laying easier, simpler and quicker.

## LOW MAINTENANCE

When you build with UrbanStone products, you're working with the highest quality material that requires minimal maintenance.

## LONG LASTING

The wet casting process ensures that the natural reconstituted stone is bedded firmly in a high-density matrix. This results in a high-density product, which ultimately requires minimal maintenance, and ensures an exceptionally long life.

## SLIP RESISTANCE

The increased co-efficient of friction from secondary shot blast finishing, ensures that the product is absolutely ideal in dry and wet\* weather conditions.

\*All UrbanStone products undergo rigorous testing to ensure they are compliant with slip resistance requirements in accordance with Australian and New Zealand Standards AS/NZS4586.

## LOW ENVIRONMENTAL IMPACT

The production of our range has minimal impact on the environment as it does not deplete precious natural and limited resources like many other materials.

To reduce the likelihood of shrinkage cracks, UrbanStone products are cured in bags, which use no energy compared to kiln fired products.

## SUPERIOR STRENGTH

With stone and/or concrete at their core, UrbanStone products have great strength and are extremely durable. They can endure significant abrasion from external forces with minimal, if any deterioration.
